# THINK RECTANGED TO THE SECONDARY OF THE

At Fruit of the Loom we know that the best fabrics start with the best cotton. That's why we only use the finest raw cotton, typically sourced from the United States.

So whether it's for school, sport, work or a promotion, we have a fabric to suit your needs perfectly.

# BELCORO® YARN: LEADING THE WAY

As industry pioneers, we are the only imprint brand in Europe manufacturing with Belcoro\* yarn. All of our T-shirts and Sweats manufactured at our in-house plant in Morocco are made with Belcoro\* yarn. Belcoro\* sets new standards in softness and quality, giving a cleaner, more stable printing area and fewer loose fibres. This means better quality printing, improved washing performance,

less pilling and enhanced durability.

# Belcoro .

# FINE KNIT GAUGE: PERFECT FOR PRINTING

All our 100% cotton T-shirts are manufactured with a fine knit gauge fabric. This ensures a tighter knitted surface area giving an improved surface for printing.

# EASYCARE FABRIC: DOES THE HARD WORK FOR YOU

All our 65/35 Polos are made from Easycare fabrics. The 65% polyester, 35% cotton mix makes them perfect for work and schoolwear as it's durable, easy to iron and fast drying. It's also washable at 60°C, crucial for long lasting performance.

# OXFORD SHIRT FABRIC: THE SMART CHOICE FOR WORK

Our Oxford shirts are designed to handle even the busiest corporatewear environment. They are made from a highly durable premium weave that gives better durability and stability, ensuring they withstand repeated washing and wearing whilst still maintaining their smart look

# 100% COTTON FACE: 100% PERFORMANCE

All our Sweatshirts use an innovative knitting technique where the polyester is kept at the back of the fabric and the cotton at the front. It's the polyester that causes the garment to pill, so this technique gives each Sweat greater durability and unbeatable pilling performance.

# 1. Face yarn

100% cotton for unbeatable pilling performance

# 2. Tie yarn

100% polyester for improved shape retention wash after wash

# 3. Backing yarn

Blended cotton/polyester brushed for extra warmth

# GETTING MORE FROM MODERACCO

Our manufacturing facilities in Morocco continue to grow from strength to strength to meet the high demands and expectations of our markets. To service 'Just in time' business we now have higher production capacity and stock holding, reduced production lead times and extra stringent quality controls.

# MORE QUALITY GARMENTS

By having our own manufacturing plant we can keep tighter control of the production process, monitoring yarn, fabric and completed garments at every stage.

We also have our own fully accredited in-house testing lab at the plant. All tests are performed to British Standards, European Norm and International Standards. By constantly testing our garments we guarantee consistency across products and that every one is the quality you would expect from Fruit.

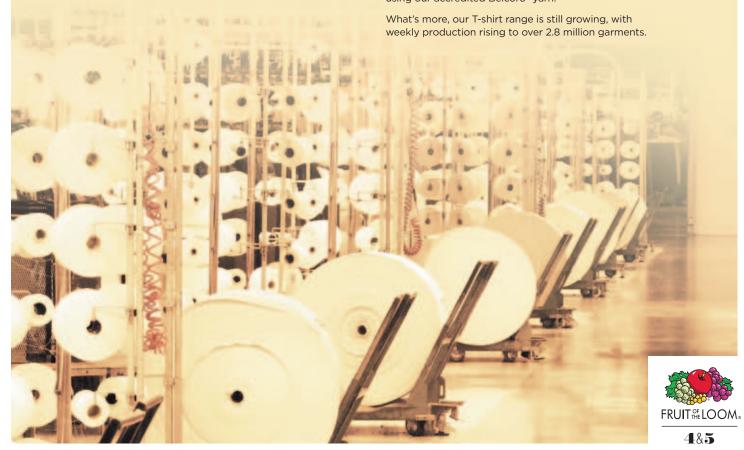

Whether it's for work uniforms, corporate wear, team wear or promotions, colour matters. Our dedicated in-house colour lab continuously checks colour consistency across every product we offer, both in-house and sourced, to guarantee the best colour consistency across all of our styles.

# WHAT YOU WANT WHEN YOU WANT IT

To give our customers even better service we have built a new distribution centre adjacent to our manufacturing plant in Morocco. With 15,000m² of space and a capacity to hold over 25 million garments, it gives us more flexibility for our European and Export business. Complementing our other distribution centres in Europe, we now have an even greater stock holding and opportunities for direct delivery on large orders with reduced lead times to market.

# MORE IN-HOUSE STYLES

Being a vertical manufacturer provides greater flexibility to incorporate new styles in-house, better control of our production, improved fabrics and quicker response to the needs of our customers. 2013 is no exception, as we will be producing all Men's and Kids Sweats in-house using our accredited Belcoro\* yarn.

# THE RIGHT GARMENTS, MADE THE RIGHT GARMENTS, MADE THE

We understand how important it is for you to know how our garments are made.

That's why we go to great lengths to ensure that all our styles are produced to the highest possible ethical and environmental standards. Fruit of the Loom has strict guidelines for both in-house manufacturing and all external suppliers which must be adhered to in addition to official legislation.

# THE FRUIT CODE

As one of the world's leading garment manufacturers we recognise our responsibilities to the environment and the community.

The Fruit Code is our code of conduct that outlines our commitment to minimising the impact we have on the environment and to making a positive contribution to the communities in which we work.

These standards also apply to our suppliers, distributors and business partners. The Fruit Code is more than a policy, it's a way of life.

# WRAP CERTIFICATION

As further proof of our commitment to having the highest ethical standards, all Fruit of the Loom facilities and those of our suppliers are now WRAP certified. WRAP is an internationally recognised third party certification dedicated to ensuring lawful, humane and ethical manufacturing throughout the world.

# OFKO-TEX ACCREDITATION

All our garments, whether made in-house or sourced, are approved to Oeko-Tex Standard 100. This certifies that they contain no substances harmful to people or the environment.

Oeko-Tex is an internationally renowned testing certification system for textiles. Test criteria are standardised across the world and include tests for pH-value, pesticides and heavy metals.

Only when a garment is proved to contain no harmful substances is it granted Oeko-Tex approval.
